Getting Started

- Please refer to the instruction sheet provided in the product package for the specifics on required & recommended tools and the assembling the products.
- Take an inventory of the parts for the products purchased to insure you have everything you need for the installation.
- Pre-plan the placement of the towers.

General Tips

- It is not recommended to install drawers in the upper unit of the tower, as the height of the drawer may prevent you from seeing what is inside the drawer.
- Assemble and build your towers.
- Place your towers, making sure to affix them to the wall as directed.
- Assemble and install any doors and drawers into the tower unit.
